EDUCATION

Cochin University of Science and Technology

Bachelor of Technology in Information Technology, CGPA: 8.95/10

Kochi, Kerala

Aug 2023 – May 2027

EXPERIENCE

Software Engineer Intern

Turqosoft Solutions Private Limited

May 2026 – Jun 2026

Kochi, Kerala

- Gained a comprehensive understanding of **ERPNext workflows** and business processes.
- Contributed to **ERPNext Manufacturing Module** features using **Flutter**, implementing Work Order, Job Card, Material Request, Material Transfer, and Stock Entry workflows.
- Integrated **REST APIs** with **Frappe backend** for real-time synchronization and collaborated with cross-functional teams for module testing and debugging.

Intern

IHITS Technologies Pvt. Ltd.

Jun 2025 – Jul 2025

Kochi, Kerala

- Developed a mobile application using **Flutter** and **Firebase** under the mentorship of a Senior App Developer and Team Lead.
- Implemented features using **GetX** for efficient state management, maintaining clean architecture and structured version control using **Git**.

AI and Computational Thinking Intern

MathWorks

Jun 2025

Remote

- Completed a one-month interactive training, implementing computational models, signal processing, and real-time machine learning mini-projects using **MATLAB** and **Simulink**.

PROJECTS

SentinelOps | Python, FastAPI, LangGraph, ChromaDB, Docker, Semgrep

Jul 2026 – Present

- Engineered an **event-driven DevSecOps platform** that autonomously analyzes GitHub Pull Requests, proactively blocking vulnerable code from reaching production.
- Architected a **parallel multi-agent workflow** using **LangGraph** to execute 3 AI agents simultaneously, reducing code review latency by **3x**.
- Implemented a **hallucination-resistant RAG pipeline** with **ChromaDB**, engineering a dynamic **Blast Radius dependency-mapping engine** that supports multi-language analysis for 7+ programming languages.
- Orchestrated 8 deterministic **SAST/SCA scanners** using custom **ARG_MAX batching** logic to prevent OS-level process crashes on massive Pull Requests, automating the detection of CVEs and hardcoded secrets.

PayrollPro | Next.js, React, Tailwind CSS, PostgreSQL, Prisma, JWT

May 2026 – Jun 2026

- Engineered a full-stack web application to streamline monthly payroll, enabling bulk CSV uploads and automated generation of encrypted PDF payslips via **pdfkit** and **nodemailer**.
- Built a robust backend using **PostgreSQL** and **Prisma ORM** to track real-time dispatch audits, secured by a custom **JWT-based authentication** system.

CIMS – Crisis Inventory & Management | Flutter, Firebase, Firestore, FCM

Jan 2026 – Mar 2026

- Built a **cross-platform disaster response platform** unifying donation intake and warehouse logistics with **Firebase Auth** for secure role-based access control.
- Engineered geospatial routing using the **Haversine formula** for automatic warehouse assignment and integrated **QR-based scanning** for delivery verification.

QuickDoc | MERN Stack, Razorpay API

Jan 2025 – Oct 2025

- Developed a **scalable multi-user healthcare platform** for booking and managing appointments with custom dashboards for patients, doctors, and admins.
- Integrated the **Razorpay payment gateway** for seamless online fee processing and implemented secure role-based authentication.

CERTIFICATES & ACHIEVEMENTS

Silver Medal (2nd Place) | *Ideathon – IIT Kharagpur (Composit'25)*

- Secured 2nd place among 60+ teams in a national-level innovation and problem-solving competition.

Certified in Full Stack Web Development | *Full Stack Open (5 ECTS) - University of Helsinki*

- Completed coursework focused on building modern web applications using React, Node.js, and REST APIs.

Ranked 7th among top 10 | *MATLAB & Simulink Training*

- Recognized for top performance out of ~500 participants in the internship.

TECHNICAL SKILLS

Languages: C/C++, JavaScript, Python, Dart, SQL

Frameworks & Libraries: Flutter, React, Next.js, Node.js, Express.js, FastAPI, LangGraph, LangChain, GetX

Tools & Platforms: Git/GitHub, Docker, Firebase, MATLAB, Simulink, Semgrep, Checkov, Prisma ORM

Databases: PostgreSQL, MySQL, MongoDB, ChromaDB (Vector Store)

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Agile Project Management
